Tendency to Constipation?=

USE THIS LAXATIVE!

Dietitians advise a "careful diet," but that is troublesome to most people; physical culturists advise "certain exercises," which is good if one has both the time and the inclination. Doctors advise diet and exercise and medicine. The question is, shall it be a cathartic or purgative medicine? Or a mild, gentle laxative?

Thousands have decided the question to their own satisfaction by using a combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. A small dose gives a free, easy movement of the personal of the p bowels. It is the best substitute for nature herself. In fact, since the ingredients are wholly from the vegetable kingdom it may truthfully be said it is a natural laxative.

'Its positive but gentle action on the bowels makes it an ideal remedy for constipation. The dose is small, and it may be taken with perfect safety until the bowels are regulated and act again of their own accord.

Another Rich Royalty Selling

Stone Norman, who was in Winchester Tuesday, says that Garner & Cheairs, of that city, have secured an option on the 1-64 royalty on the D. B. Pendergrass tract of 900 acres in the Big Sinking section of Lee county for \$90,000. Practically all of this money has been subscribed, and the deal is expected to be closed this week. The acreage in question is in the most productive section of Lee line and 23 more wells drilling. This the Lee county fields.

This tract adjoins the Pat Edmunds lease on which there are now five producing wells. At the present time practically all of the production from this territory is being carried by the Indian Refining Company, which has a four-inch pipe line into the Johnson pool.

On the 75 acres of the D. B. Pendergrass tract in Lee county, the W. P. Williams Oil Corporation, Young and Stevenson, will shortly have eight rigs drilling. The Carter Oil Company has made a location for No. 22 on its 65 acres of the D. B. Pendergrass tract, and when this well is completed the entire lease, it is stated, will be drilled up. The Bald Rock Oil Company will soon have 13 rigs at work on the southern 600 acre section of the Pendergrass lease.

THE IDEAL WOMAN

The great Napoleon once said: "My ideal woman is not the beautiful-featured society belle, whose physicians tries in vain to keep her in repair, but the matron who reaches middle age in complete preservation,—that woman is rendered beautiful by perfect health." To attain such health in middle life a woman must guard against those ills which drag her down and produce nervousness, headache, backaches, sleeplessness and "the blues." The standard remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which for 45 years has been restoring women to health and strength.
